PROFESSIONAL SUMMARY

Frontend developer with 10+ years building for the web, specializing in React, Next.js, TypeScript and Node.js. Currently architecting a multi-vertical e-commerce SaaS on Odoo for a German client - reusable industry templates (retail, food, services), owned end to end. Comfortable across the full stack. Fluent English for cross-border teams.

TECHNICAL SKILLS

Languages & Frameworks:	TypeScript, JavaScript, Node, Bun, React, Next, Astro, Express, Nest
Frontend & UI:	Tailwind CSS, shadcn/ui, Radix UI, Material UI, TanStack, Zustand, Zod, Vite
Platforms & ERP:	Odoo, WordPress, Shoper
Databases:	PostgreSQL, SQLite, Prisma
Testing:	Jest, Vitest, Playwright (unit & e2e)
Tools:	Git, Docker, VPS, Figma, Claude Code / AI-assisted dev tools, Oxlint, Oxfmt
Methodologies:	Agile, REST APIs, Responsive Design, CI/CD

WORK EXPERIENCE

Self-Employed Frontend Developer (JDG)

March 2026 - Present

Remote - Long-term client: LionKnight Commerce Solutions GmbH (Germany)

- Architecting an Odoo-based ERP/CRM SaaS product, building e-commerce templates across three verticals (services, food, retail)
- Building client websites end to end, from scope to production, working directly with a German client with no intermediary PM
- Sole developer on delivery - own the technical and scheduling decisions

IT Technician Intern | COS

Giżycko, Poland - network/device support for an Olympic training facility

Aug - Nov 2024

Lead Frontend Developer | Kacky.gg

March 2024 - March 2026

Remote - Stats/leaderboard platform for the Trackmania racing game community

- Rebuilt leaderboard rendering with cached SSR and row virtualization, replacing full client-side rendering - cut load times from 5-10s to 0.5-1s (~90% faster)
- Drove further rendering and data-fetching optimization across the app, cutting load times 70-90% on key views
- Owned code review and CI/CD for an international contributor team, coordinating over GitHub and Discord

Career break

Family commitments; continued self-directed learning

2023 - 2024

Freelance Fullstack Developer | ELO Pokrowce

March 2023 - June 2023

Giżycko, Poland - Sailing/boat cover manufacturer

- Built a new online store from scratch, choosing the stack (React, Node.js/TypeScript)
- Integrated a multi-courier shipping API with real-time tracking, replacing manual shipment lookups

Fullstack Developer | 3klik S.C.

Sept 2021 - March 2023

Giżycko, Poland - Recipe-guided meal kit delivery startup

- Chose the stack and built a greenfield e-commerce platform from scratch (React, Node.js/TypeScript)
- Designed an admin panel with automated order processing, replacing a fully manual fulfillment workflow
- Integrated Stripe directly into the checkout flow

Self-Employed Photographer/Videographer

Independent wedding and commercial photography business

Jan - Dec 2020

Frontend Developer | Prescott S.C.

October 2018 - September 2019

Giżycko, Poland - LED lighting manufacturer/importer

- Migrated a legacy e-commerce platform, optimized SEO for search ranking
- Handled customer support via live chat for technical/product questions
